Their ritual, taken to the Namib

Sauna people travel for sauna: weekends around famous bathhouses, flights for festivals. This is the version none of them has done yet: deep heat in the Namib, cold desert air outside, wildlife by day and the Milky Way by night. Five departures run in 2027, the first from February 11 to 21. Nothing for your club to pay to join; terms are structured per partner.

Your next step
